DATA LIMITATIONS:

- Image comparability 63/100 (fair); biggest factor: 166 days apart in the seasonal cycle.
- Change dated only to the window between the two images: no yearly series stored for this area.
- OpenStreetMap exposure and buffer checks are screening only, not legal boundaries; verify against revenue, FTL and Development Plan records before any notice.

RECOMMENDED IMMEDIATE DIRECTIVES:

1. Send Priority 1-2 sites for field verification in the case workflow.
2. Cross-check flagged sites against Development Plan, CRZ maps and building permissions.
3. Treat 'possible encroachment' as a screening flag, never as a legal finding.
4. Act only on field-confirmed cases; no demolition or eviction on satellite evidence alone.
